

MicroCom XR 10-Bay Battery Charger Operating Guide

Model Number: PBT-10BAY

We at Pliant® Technologies want to thank you for purchasing the MicroCom 10-Bay Battery Charger. The charger's design allows users to simultaneously charge up to ten Pliant rechargeable lithium-polymer (BT-12) batteries.

Charger Overview

- A. Battery Bay (Batteries Not Included)
- B. LEDs: Battery Charging Status
- C. Power Connection

What's in the Box?

- PBT-10BAY - Battery Charger
- 00004239 - Power Supply
- PC-PWR-XX (Region Specific) - AC Power Cord
- D0000732 - Operating Guide

LEDs

- Red when charging
- Off when charged

Safety Recommendations

WARNING – DANGER! Users should take special precautions to avoid the introduction of hazards when operating, installing, servicing, transporting, or storing this device and lithium-polymer batteries.

- Do not place unit in areas where it will be exposed to weather.
- Exercise extreme care when working with electricity, and always connect the device into a ground-fault interrupting circuit when working outdoors or near water.
- PBT-10BAY should only be used at an altitude not exceeding 2000 m.
- Do not allow the power cord to become crimped, twisted, or frayed.
- Refer all PBT-10BAY service to qualified Pliant Technologies service personnel.
- When the PBT-10BAY is exposed to electromagnetic (EM) disturbances, the device may show abnormal behavior.

Charger Operation

Battery charge time from empty is approximately 3 hours.

During static events, LED operation may display an errant charging status. It will only be temporary and will recover without damage to the charger or its contents.

Warranty

Pliant Technologies, LLC products are warranted to be free from defects in materials and workmanship for a period of one year from the date of sale to the end user.
